Re: Bioremediation 10/20/99

11/22/94

High Russell - Ada, OK

- ⇒ 10 ppm difficult almost impossible possibly w/ storm phase but would be ^{very} difficult
- ⇒ 44.7 ppm Morgantown Ordnance having tough time
- ⇒ 80 ppm could probably do but not 10

Gary Turner TIO 703-308-8800 DC
data bases back 12/16
vendor info

how well bio works
commonly fact sheets
sites where it hasn't worked

2nd 6 South Cascade 1 ppm CPAT couldn't get close
Houston, TX creosote

2nd 6 Paul Saminski
treat. studies done by ADA
going to 95% reduction rather than
specific concentrations

Branford

Will look into Freshhorn & also other sites & call me 12/1
